

```
#include<stdio.h>
#include<conio.h>
main(){
    int n1,n2,n3;
    printf("Enter your first number:");
    scanf("%d",&n1);
    printf("Enter your second number:");
    scanf("%d",&n2);
    printf("Enter your third number:");
    scanf("%d",&n3);
    if(n1<n2&& n1<n3){
        printf("\nFirst number %d is the smallest number.",n1);
    }
    else if(n2<n1&& n2<n3){
        printf("\nSecond number %d is the smallest number.",n2);
    }
    else{
        printf("\nThird number %d is the smallest number.",n3);
    }
    printf("\n-----Best of luck-----");
    return 0;
}
```

```
st C:\Users\Fine Gallery\OneDrive\Documents\CW-Q2.exe
Enter your first number:79
le Enter your second number:098
Ed Enter your third number:33
Third number 33 is the smallest number.
C -----Best of luck-----
